

IN THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application.

1. (Currently Amended) A method for decreasing weight ~~fat absorption~~ in mammals comprising: feeding an animal food and a liposome-encapsulated anti-lipase antibody.
2. (Previously Presented) The method of claim 1 wherein said anti-lipase antibody is an avian antibody.
3. (Previously Presented) The method of claim 2 wherein said liposome-encapsulated anti-lipase antibody is in a wet state and freeze drying said liposome-encapsulated anti-lipase antibody.
4. (Previously Presented) The method of claim 1 wherein said animal is a mammal.
5. (Previously Presented) The method of claim 1 wherein said animal is an avian.
- 6-11. (Canceled).
12. (Previously Presented) The method of claim 1 wherein said liposome-encapsulated anti-lipase antibody is formed prior to said feeding.
13. (Previously Presented) The method of claim 1 wherein said animal food comprises dietary lipid:
14. (Previously Presented) The method of claim 1 wherein said animal food comprises 25 to 1000 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food.

15. (Previously Presented) The method of claim 1 wherein said animal food comprises at least 25 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food..

16. (Currently Amended) A composition for decreasing weight ~~fat absorption~~ in mammals, comprising: a mixture of food for an animal and a liposome-encapsulated anti-lipase antibody.

17. (Previously Presented) The composition of claim 16 which contains 25-1000 mg of said liposome-encapsulated anti-lipase antibody per kilogram of said food.

18. (Previously Presented) The composition of claim 16 wherein said anti-lipase antibody is an avian anti-lipase antibody.

19. (Previously Presented) The composition of claim 16 wherein said liposome-encapsulated anti-lipase antibody is in one of a wet state and a freeze dried state.

20-21. Canceled.

22. (Previously Presented) The composition of claim 16 wherein said food comprises dietary lipid.

23. (Previously Presented) The composition of claim 16 wherein said food comprises at least 25 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food.

24. (Previously Presented) The composition of claim 23 wherein said anti-lipase antibody is an avian anti-lipase antibody.

25. (Currently Amended) A method of making a composition for decreasing weight ~~fat absorption~~ in mammals comprising, mixing a liposome-encapsulated anti-lipase antibody with food.

26.- 31. (Cancelled)

32. (Currently Amended) A method of using a liposome-encapsulated anti-lipase antibody for decreasing weight ~~fat absorption~~ in mammals comprising:
feeding said liposome-encapsulated anti-lipase antibody to an animal.

33. (Previously Presented) The method of claim 32 wherein said anti-lipase antibody is an avian anti-lipase antibody.

34. (Previously Presented) The method of claim 32 said liposome-encapsulated anti-lipase antibody

35. (Currently Amended) The method of claim 32 wherein liposome-encapsulated anti-lipase antibody is mixed with food for said animal.

36.- 42. (Cancelled)
